Independent Auditors' Report

Members of The Township
Board of Trustees
Charter Township of Midland
Midland County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Charter Township of Midland, Midland County, Michigan, as of and for the year ended December 31, 2006, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township Board. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Charter Township of Midland, Midland County, Michigan, as of December 31, 2006, and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 2 through 4 and 22, are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For The Year Ended December 31, 2006**

Using This Annual Report

This annual report of the Charter Township of Midland (the "Township") consists of a series of financial statements. The Government-Wide Statement of Net Assets and the Government-Wide Statement of Activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. The Governmental Fund financial statements of the Township tell how these services were financed in the short-term, as well as what remains for future spending. The Governmental Fund financial statements of the Township also report the Township's operations in more detail than the Government-Wide Statements of Net Assets and the Government-Wide Statements of Activities.

The Township As A Whole

The net assets of the Township were \$3,504,165. In a condensed format, the table below shows net assets for the Township for the years ended December 31, 2006 and 2005:

The Township As A Whole (Continued)

Unrestricted net assets is the part of net assets that can be used to finance day to day operations. The current level of unrestricted net assets for the Township stands at \$1,338,845, or about 150% of operating expenses. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating. The following table shows the changes of the net assets for the years ended December 31, 2006 and 2005:

Net change in fund balances - total governmental funds (Exhibit 5)	\$	12,259
--	----	--------

The change in net assets reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$112,296) exceeded capital outlay (\$0) in the current period.		(112,296)
--	--	-----------

Bond proceeds and capital leases are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net assets.

**CHARTER TOWNSHIP OF MIDLAND
MIDLAND COUNTY, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2006**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Charter Township of Midland (the "Township") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Township:

A. Reporting Entity

The Township is governed by an elected seven-member board. The accompanying financial statements present the Township operations for which the government is considered to be financially accountable. The Township has no component units and is not responsible for any jointly governed organizations.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

MIDLAND COUNTY, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2006**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

The Township property tax is levied each December 1st on the taxable valuation of property (as defined by State statutes) located in the Township as of the preceding December 31st. Although the Township 2005 ad valorem tax is levied and collectible on December 1, 2006, it is the Township's policy to recognize revenue from the current tax levy in the subsequent year when the proceeds of this levy are budgeted and made "available" for the financing of operations. "Available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

The 2006 taxable valuation of the Township totaled \$64.1 million, on which ad valorem taxes levied consisted of 4.0000 mills for Township operating purposes. This amount is recognized in the General Fund as current tax revenue.

The government reports the following funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Flood Control Fund is a special revenue fund which accounts for expenditures on public works activities.

The Township Improvement Revolving Fund is a special revenue fund which accounts for the collections from water hookup fees and surcharges added to water bills which are to be used for the repayment of long-term debt.

The Water Debt Service Fund is a debt service fund which accounts for expenditures for long-term debt payments of the Township.

The Building Department Fund is special revenue fund which accounts for revenues from licenses and permits and expenditures for public safety activities.

Additionally, the government reports the following fund type:

The Current Tax Collection Fund is used to account for resources held by the Township in a purely custodial capacity. Money in this fund is from current tax collections. Timely distribution to the appropriate fund and local unit must be made in accordance with Section 43 of the General Property Tax Act.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in government-wide financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

D. Assets, Liabilities, and Net Assets

Bank Deposits and Investments—Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables—In general, outstanding balances between funds are reported as “due to/from other funds.” Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as “advances to/from other funds.”

All trade and property tax receivables are shown net of allowance for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on February 14th of the following year, at which time penalties and interest are assessed.

Capital Assets—Capital assets, which include property, plant, and equipment are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Assets (Continued)

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	25 to 40 years
Building improvements	20 to 40 years
Water systems	50 years
Fire apparatus	25 years
Fire equipment	5 to 25 years
Office equipment	5 to 10 years
Computer equipment	5 to 10 years

Long-Term Obligations—In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity—In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information—Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the debt service funds. All annual appropriations lapse at fiscal year end. The budget document presents information by fund, function, department or activity, and line items. The legal level of budgetary control adopted by the governing body is the department or activity level. The Township had no expenditures in excess of the budgeted amounts for the year ended December 31, 2006.

NOTE 3. DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the Township to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The Township is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers acceptances of United States banks' commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The Township Board has designated five banks for the deposit of Township funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and certificates of deposit, but not the remainder of State statutory as listed above.

The Township's deposits and investment policy are in accordance with statutory authority.

At year-end, the Township's deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Fiduciary Funds	Total
	<hr/>	<hr/>	<hr/>
Cash and cash equivalents	<u>\$ 2,279,939</u>	<u>\$ 306,815</u>	<u>\$ 2,586,754</u>

The breakdown between deposits and investments is as follows:

Bank Deposits (checking and savings, certificate of deposit)	<u>\$ 2,586,754</u>
---	---------------------

The bank balance of the government deposits is \$2,586,754, of which \$400,000 is covered by federal deposit insurance.

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investment and Deposit Risk

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned. The Township does not have a deposit policy for custodial credit risk. At year end, the Township had \$2,186,754 of bank deposits (certificates of deposit, checking and savings accounts) that were potentially uninsured and uncollateralized.

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, that the Charter Township of Midland will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year end, the Township had no investment activity.

Interest Rate Risk. Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. State law limits the allowable investments and the maturities of some of the allowable investments. The Township's current investments have no potential interest rate risk.

Total	<u>\$ 157,061</u>		<u>\$ 157,061</u>

NOTE 6. LONG-TERM DEBT

The government issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties that directly benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the district) are received. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

The County of Midland, on behalf of the Township, issued Water Supply System bonds. The Township is responsible for payment of such bonds and debt service which is being financed by a combination of hookup/user fee charged to property owners, and a debt service and maintenance surcharge added to water bills. Revenue from the hookup fee is being recognized in the Township Improvement Revolving fund. The expenditures for debt service made are reflected in the Water Debt Service fund.

	<u>\$ 1,202,942</u>	<u>\$ 2,915,000</u>	<u>\$ 4,117,942</u>

NOTE 7. RISK MANAGEMENT

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries (workers compensation). The Township has purchased commercial insurance for these types of claims. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three years.

NOTE 8. PENSION PLAN

The Township's defined contribution pension plan investments are held in trust by the fiduciary, Manufacturers Life Insurance Company. Michigan Compiled Laws, Section 38.1132, authorizes the Township pension plan to invest in a wide variety of investments including stocks, bonds, certificates of deposit, real estate, annuity contracts obligations of a specified nature, and real property. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The Township provides pension benefits to members of the Township Board of Trustees for those who elect to participate.

NOTE 8. PENSION PLAN (Continued)

Contributions to the pension plan are based on 7.5% of wages for Township Board members. Benefits in the plan vest immediately at 100%.

For the year ended December 31, 2006 the Township made its contribution of \$3,270. The value of the plan's assets and vested benefits as of December 31, 2006 is \$44,741.

NOTE 9. URBAN COOPERATION ACT AGREEMENT

On December 24, 1992, the Charter Township of Midland and the City of Midland entered into an Urban Cooperation Act agreement. Under this agreement, revenue derived from the levy of ad valorem property taxes of specific taxes levied in lieu of general ad valorem property taxes of a portion of the commercial and industrial property located within the city of Midland will be shared with the Charter Township of Midland. In return for the revenue sharing agreement, the Township agrees that its Township board, during the duration of this agreement, will assist the City of Midland and agrees to provide water service at their expense to a certain City/Township boundary. The duration of this is thirty years, beginning on the effective date of December 30, 1992, and continuing to December 31, 2022.

NOTE 10. SUBSEQUENT EVENT

On February 12th, 2007 the Township entered into an agreement with Rosenbauer America for the purchase of a new Fire Pumper Apparatus at a total cost of \$242,222. Upon completion of the chassis, \$83,564 is to be paid to the company, and the balance due will be paid upon delivery. The estimated delivery date is January 2008.

Members of the Township Board of Trustees
Charter Township of Midland
Midland County, Michigan

Dear Board Members:

In planning and performing our audit of the financial statements of the Charter Township of Midland, for the year ended December 31, 2006, we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control. However, we noted certain matters involving the internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control that, in our judgment, could adversely affect the Township's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that we believe to be material weaknesses.

REPORTABLE CONDITIONS

General Ledger

The auditors were required to make several audit adjustments to the general ledger. The general ledger is the primary responsibility of the Township Clerk, and these adjustments should be made during the course of the year in order to more properly reflect the monthly financial position of the township.

Recommend that these audit adjustments be reviewed by the Township Clerk, and that journal entries are made each month in which they occur. This will provide the board members with up to date and accurate financial reports each month.

Significant Deficiencies in Internal Controls

Financial Accounting and Reporting

Management relies on the Township's auditors to ensure the financial statements conform to generally accepted accounting principles ("GAAP"). Therefore, as a part of our engagement to audit the financial statements, we draft the financial statements and the related footnotes for approval by management and the finance committee of the board of directors. This is a conscious and practical approach to preparing the financial statements since the Township has determined that the costs to establish internal controls over financial reporting and to develop the skills and knowledge of its personnel to apply generally accepted accounting principles in preparing the financial statements is greater than the risk of misstatements occurring in the financial statements. However, as a result of recently issued professional auditing standards, this situation meets the definition of a significant deficiency and a material weakness in internal control.

The interim financial statements and management reports are generally prepared on a comprehensive basis of accounting other than generally accepted accounting principles, i.e. the modified accrual basis. It appears that the interim financial reports received by management are appropriate in form and content thereby allowing management to make appropriate decisions regarding financial matters. Therefore, the control weakness over preparation of financial statements in conformity with GAAP is not a significant requirement of management.

We considered this internal control deficiency in planning the scope of our audit procedures and believe that we have appropriately addressed the risk of any misstatements in the audited financial statements. Therefore, due to the relative cost to eliminate the internal control deficiency over financial reporting in conformity with GAAP related to the risks involved and considering the audit procedures performed to address the risk of misstatements in the audited financial statements, we do not recommend any actions to address this weakness at this time. However, we do recommend that management routinely review the internal controls in place to prepare the interim financial reports to ensure accurate information is provided in those reports.

OTHER MATTERS

The following items, although not considered reportable conditions, are matters we believe worthy of your consideration.

Financial Oversight

The general limitations in any smaller municipalities like the Charter Township of Midland requires that Board of Trustee members continue to remain involved in the financial affairs of the Township through oversight of operation, development of the annual budget, inquiries about variance between budgeted and actual amounts shown in the financial statements, and the independent review of critical functions. Based on inquiries with the Clerk, the Board of Trustees perform these duties and our recommendations is to continue strong oversight of financial affairs.

Other Items

During the audit of the petty cash held by the Township Treasurer, it was discovered that a second petty cash account or imprest fund for \$100 also existed which was held by the Office Professional; however the cash is not recorded on the township's trial balance. It is required by the State of Michigan statute that all trust and agency type accounts be maintained and properly recorded on the municipality general ledger system.

Recommend that Treasurer review records for all cash that is being held by individuals in the township for the purpose of petty cash or imprest fund, and properly record any and all such accounts on the general ledger.

Conclusion

These conditions were considered in determining the nature, timing, and extent of the audit tests applied on our audit of the December 31, 2006, financial statements, and this report does not affect our report on those financial statements dated May 9, 2007. We have not considered internal control since the date of our report.

This report is intended for the information of the members of the Board of Trustees, management and the State of Michigan, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

Burnside & Lang, P.C.

BURNSIDE & LANG, P.C.
